

**Palmetto Library
Public Art Project**
Artist: Andrew T. Crawford
Project Title: *On a Roll*

PROJECT DESCRIPTION

- Artwork is a steel sculpture loosely based on the imagery of an old tractor that has been left in a field
- This sculpture is inspired by the architect's use of rural imagery and stems from the artist's love of common and familiar objects
- The sculpture responds to the facility in that its concept is a reflection of the underlying architectural theme. The structure of the building is based on the reorganization of the forms found in agricultural buildings, mainly barns.
- The project will involve community once the sculpture is installed through a community workshop in the new facility. Andrew Crawford will give a short talk about the sculpture, his inspiration, and the processes used to make it. Mr. Crawford will then teach a short workshop on wire sculpture for interested children and adults.
