

# FULTON COUNTY PUBLIC ART PROGRAM

## ALPHARETTA LIBRARY

Artist: David Landis

Project Title: *OPEN*

## PROJECT DESCRIPTION

*OPEN* highlights literature and the power, knowledge that it endows, and is composed of three elements. Each of these elements has its own title.

Elements of *OPEN* are placed in three areas of the facility; bringing classical children's literature to life.

"*The Explorers*", a suspended sculptural installation, featuring fawns wandering through the pages of books.

"*The Chase*" installed along the stairwell. In this area, rabbits burst forth from tumbling books and windswept pages before vanishing again into them.

"*The Guardians*", located in the entrance plaza, presents a lion, coming out of the pages of an open book after being released from his binding by a mouse.
